Tomato-tone is a complete plant food. It contains all the essential plant nutrients.

The Espoma Co. • 6 Espoma Rd. • Millville, NJ 08332

Directions

1 pound equals approx. 3 cupfuls

Soil Preparation

When preparing tomato bed apply 2 lbs. of Tomato-tone per 50 square feet (or 5 1/2 cups per 50 sq. ft.) and work into the top 4 to 6 inches of soil.

Feeding

Apply 2 tablespoons of Tomato-tone per plant after plants are well established (10 to 14 days) and then twice each month during the growing season.

Quantities

Rows: 1 cup each side per 5 feet of row.

Single Plants: 2 tablespoons per plant.

Potted Plants: 1 teaspoon per 4 inches of pot diameter (1 tablespoon per 12 inches of pot diameter)

Apply Tomato-tone in a narrow band around single plants or along each side of row. Keep Tomato-tone at least 3 inches away from plant stem.

Potted Plants:

Apply evenly over soil area and gently mix in.
